贺 信

值此首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾大会隆重召开之际，向大会的顺利举办致以热烈祝贺！向主办方国际系统医学研究所、协办方加拿大中医科学院，以及共同主席巩昌镇博士、金雷博士，主持人黄巍医生、程霞博士和全体会务人员致以诚挚问候！向金观源教授表示崇高的敬意！

针灸是中华医学千年瑰宝，秉持整体调控理念，守护大众健康、联通中外医学交流。本次大会面向全球公益免费、跨时区线上召开，汇聚十余位国际资深针灸专家，分享从传统阿是穴到反映点针灸治疗疑难杂症的临床经验与创新技术，为全球针灸从业者，尤其是基层医务工作者搭建了高水平、实用性极强的学术交流平台，意义深远。

六十年笃行致远，一甲子深耕岐黄。谨向金观源教授致以崇高敬意！金教授深耕针灸临床、科研与教学六十载，师承老一辈针灸名家，融汇中西医理论、系统医学与现代神经科学，立足《黄帝内经》“内外相应”核心思想，突破传统固定穴位局限，为创立反映点针灸完整学术体系做出了突出贡献。

金教授以控制论、系统论解读经络实质，提出体表动态反映点诊疗核心理论，完善针灸反射学体系，著书立说、临床实践，推动传统针灸从经验医学迈向科学化、精准化、系统化，为针灸现代化、国际化发展作出开创性的重大贡献。

本次大会压轴主旨演讲《针灸医学发展的过去、现在与未来》，将以历史、哲学与系统医学的多维视角，复盘针灸发展历程、剖析行业困境与时代机遇，为当代针灸创新发展指点迷津。

传承不息，创新不止。希望以本次国际研讨会为契机，全球针灸同仁凝心聚力、互学互鉴，深耕临床、守正创新积极推广针灸先进理念与技术，推动传统针灸与现代科学深度融合，助力中医药针灸走向世界、普惠全球民众。

最后，预祝本次国际研讨会取得圆满成功！恭祝金观源教授学术长青、福寿康宁！祝全体参会专家同仁学有所得、精进致远！

贺信

祝贺金观源教授行医治学六十年
尊敬的各位同仁、朋友们：

今天，我深感荣幸，能够在这个面向全球直播的网络大会上，与大家一同祝贺金观源教授行医治学六十周年。

在历史的长河中，人的一生相对短暂。能够坚守一个职业，辛勤耕耘六十年，对几乎所有人来说，一生只有一次这样的机会。今天我们能够相聚于此，共同祝贺金老师卓越成就，学习他六十年的宝贵经验，对我们每个人而言，都是一种幸运的机缘。

我最初了解金老师的学术思想，可以追溯到大学时代。那时我们刚踏入中医学院，正处于知识朦胧、思想渴求启蒙的阶段。我读到了金老师哥哥——金观涛先生的文章，用控制论的黑箱理论来解释中医的原理，称中医为科技史上的一个奇迹。这对我思想上的启发很大，影响至今。而几乎在同一时期，金观源老师就已开始用同样的思想研究针灸，提出了“针灸控制论”的构想，并从临床实践入手，积累经验，开启了他贯穿一生的科学研究、理论思辨与临床实践。近年来，他又在师承育人人方面付出了巨大努力。

在金老师众多卓越的成就中，我特别想向大家推荐他近三年来发表于《中华中医药学刊》的三篇文章。希望大家有时间认真精读，我保证你们会开卷有益。

第一篇发表于 2024 年，主题是针灸抗炎的原理与临床应用。在这篇文章中，金老师敏锐地捕捉到近年来针刺研究的一个重要突破——抗炎机制的阐明及其临床应用，并结合自身丰富的临床经验进行了详细阐述，为未来针灸的发展指明了一个广阔的前沿领域。

第二篇发表于 2025 年，内容是关于“晕针”现象的总结、分类及其临床意义。金老师根据自己六十年的临床经验，结合充分的文献研究，系统总结了晕针带来的临床利弊，可能“获大效”的特点。将晕针视为一种强烈的得气反应，并深入论述了如何正确理解和应对这一临床现象。这样的知识和经验在教科书中难寻，对年轻针灸师尤其弥足珍贵。

第三篇发表于 2026 年，主题是针刺“扎眩”现象的历史、原理、应用及临床技巧。金老师全面总结了不同部位出现的扎眩现象、相关解剖部位、生物学机制及其临床价值，结合他自身在在生理研究方面的专长，为各种扎眩现象提供了科学的解读。无论是针刺手法还是临床应用，这篇都对所有针灸师都有重要的参考价值。

我之所以向大家推荐这几篇文章，因为文章在针灸原理、患者反应及针刺手法这三个针灸重要环节上都有重要的学术贡献和临床价值。这样的学术成果能够发表在经过严格同行评议的一流专业期刊上，不仅是一种荣誉，更是一种有价值的学术传承，是对针灸专业发展的重要推动。这些知识将留存于公认的学术数据库中，被广大同行阅读、传播，也将被未来的人工智能 AI 所引用，最终成为中医针灸学术体系的一部分。

我衷心希望大家学习金老师的治学态度，为患者服务的精神，积极传播针灸科学，共同推动针灸的传承、创新与国际化。

最后，再次祝贺金观源教授从医治学六十周年，桃李满天下。谢谢大家！

贺信

尊敬的金观源教授：

欣逢“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”隆重召开之际，请允许我代表中国中医药信息学会肝江医源研究分会及全国名老中医谢强传承工作室向大会表示热烈祝贺!向金观源教授六十年来在针灸医学领域所作出的卓越贡献，致以崇高敬意!

您是国际著名中西医结合学家、针灸临床与理论大家、神经生理学家与时间生物学家，一生撰写发表论文150余篇，出版《临床针灸反射学》《针灸与控制论》《现代时间医学》《系统医学原理》等著作27部，著作等身，理验俱丰。

您倡导的反映点针灸、针灸反射学是基于《黄帝内经》思想，融会现代系统医学与神经科学的新型针灸，揭秘了针灸起效的奥秘，丰富了针灸技术和临床应用，必将对现代针灸的发展产生深远的影响。

您耕耘针灸领域六十载，与我师出同门。您早年不仅受师于名医焦勉斋、郑魄山，而且还与我同学于恩师魏稼教授。您是我最尊敬的师兄，虽然恩师谢世多年，却时常得到您的关怀和指点，让我时时感受到师门的温馨。

您深谙传统的针灸技法与理论，在继承与发展经络学说基础上，从系统医学视角出发，继承古典经络学的内核，用现代语言阐释经络与腧穴，创建“反映点针灸”“针灸反射学”理论与体系，为重构经络体系提出新思路。

您立雪程门，重视针灸医学的传承和发展，数十年布道讲学，创新针灸，追寻者众，弟子遍布环宇，卓然形成国际金氏针灸流派。我相信，金氏针灸学术常青，泽惠世界!

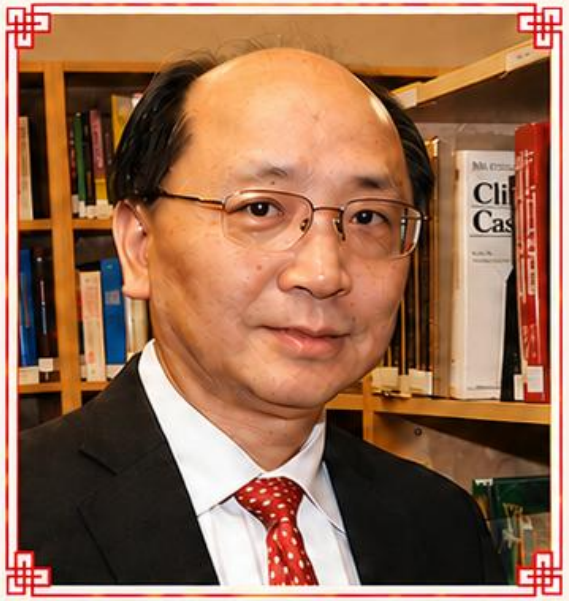

最后，祝本次研讨会和纪念活动圆满成功!祝金观源教授健康长寿!祝各位专家学者身体安康、事业昌盛!祝针灸医学薪火永续!

尊敬的金观源教授：

欣闻首届国际反映点针刺（ARPA）学术研讨会暨金观源教授从医 60 周年纪念活动即将举行，请允许我代表纽约中医学院表示衷心祝贺，祝愿研讨会圆满成功。

金教授是国际著名针灸临床与理论家、神经生理学家与时间生物学家，美国知名中医前辈，具有中西医结合、在中美两地从事针灸临床与科研并举的独特背景，著作论文甚丰，除 150 余篇论文，著有《针灸与控制论》、《临床针灸反射学》、《现代时间医学》、《系统医学原理》等 27 本中英文著作。

您早年受师于焦勉斋、郑魁山、魏稼等针灸前辈，深谙传统的针灸技法与理论，在继承与发展经络学说基础上，从系统医学视角出发，继承古典经络学的合理内核，用现代语言阐释经络与穴位，创建“反映点针刺”理论与体系，为重构经络体系提出新思路。程门立雪，弟子遍布世界各地，金氏流派卓然而成。2024 年加拿大《世界华人周刊》评选首届海外国医大师，金教授当然在列，实至名归，可喜可贺！

作为纽约中医学院客座教授，您早在 2011 年亲临纽约，祝贺学院十五周年庆并作精彩讲座；学院二十五周年院庆正值疫情施虐，您在线上为学院师生讲述反映点的策略与技术以提高针刺疗效；今年学院三十周年大庆，诚邀您作为嘉宾出席十月举行的庆典，共襄盛举，以资鼓励。

金教授从医六十周年之际，恭祝健康长寿！谨撰偶句，以殿贺文。

尊敬的大会组委会、各位海内外专家学者、各位同道朋友：

大家好！

值此“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”隆重召开之际，我谨以一位二十多年老朋友的身份，向大会的召开表示热烈祝贺！向长期致力于针灸医学传承、创新与传播的金观源教授致以最诚挚的敬意！

我与金教授相知相识已有二十余年。多年来，我们虽然身处不同的两个国家，但始终保持着密切的学术联系，经常通过电话深入进行交流和探讨，内容有针灸理论的发展方向，也有临床实践中的一些具体问题。在头皮针等方面的研究工作，我曾多次得到金教授的指导。2018 年 5 月金老师到上海进行学术演讲，期间我与金教授得以会面和交流。

二十多年的学术交往中，我不仅见证了金教授学术思想的发展历程，也深受其学术观点的影响。在我看来，金教授最大的特点，是始终坚持“从临床中来，到临床中去”。

二十多年前，当我第一次拜读《临床针灸反射学》时，便有一种耳目一新的感觉。我曾为该书首版撰写书评，题目是《立足临床，创新实用》。在那篇书评中，我写道：“针灸反射学架起了针灸医学和现代医学之间的桥梁，是作者对针灸医学的一大贡献。”今天回头再看，我依然坚持这一评价。

金教授出身书香门第，受过完整的现代医学教育，又长期在基层使用针灸为贫苦民众解除病苦。所以他提出“继往圣，开未来”，既肯定传统经络学说对临床的指导意义，同时又大量临床事实出发，结合现代神经生理学、系统论和控制论思想，提出针灸本质上是一种反射调节疗法，并逐步形成了针灸反射学体系。事实证明，这一探索具有重要的学术价值。

从《临床针灸反射学》到“反映点针灸（Acu-Reflex Point Acupuncture）”理论，再到近年来提出的扎胱针法、局部擂动反应、肌梭靶点、运动点以及神经血管入肌点等研究成果，我们可以清楚地看到金教授一条学术主线：那就是努力用现代科学语言解释传统针灸现象，用生理机制解释针灸疗效。而不是反对、抛弃传统的经络学说。这种探索精神尤其值得我们学习。

针灸疗法是中国传统医学，其土壤是中国传统文化和思维。故针灸疗法在世界广泛传播，如何让针灸为世界人民所接受？如何回答现代医学提出的问题：针灸作用于什么结构？通过什么机制发挥作用？如何推动疗效并实现可重复性？今天的针灸医学，正面临新的历史机遇与挑战。对于这些问题，金教授几十年来始终没有停止思考。

作为一位从医六十年的针灸学者，他不仅是一位临床家，也是一位理论家；不仅重视传统经验，更重视科学验证；不仅关注技术本身，更关注针灸学科未来的发展方向。

我特别欣赏他始终坚持的一个理念：针灸疗法不能停留在经验层面，而应当不断走向科学化、规范化和国际化。

正因为如此，《临床针灸反射学》自出版以来受到海内外同行广泛关注。第二版、第三版由清华大学出版社出版后，影响进一步扩大。许多国内外专家给予了高度评价，有人称其“无论在针灸医学的深度与广度上均堪称世界第一”，也有人誉之为“针灸史上的里程碑”。我认为，这些评价虽然很高，但并非没有依据。因为它所体现的，并不仅仅是一本书的价值，更是一位学者数十年坚持独立思考、勇于创新的学术精神。

金教授为了普及发展针灸医学，在全球广收弟子，年逾七旬，仍为推广针灸疗法全球奔波，令人深为敬佩。

六十年，对于一个医生而言，是漫长而辉煌的历程。从上世纪六十年代走上医学道路，到今天依然活跃在国际针灸学术舞台，金教授用一生诠释了什么叫做“学而不倦，海人不倦”；用一生证明了真正的学术创新，永远来自对临床的热爱、对实践的尊重和对真理的不懈追求。

今天举行这次学术回顾大会，不仅是对金教授个人学术成就的总结，更是对一种严谨的学术精神的致敬。

我衷心希望，以本次大会为契机，海内外针灸同道能够进一步加强交流与合作，共同推动反映点针灸、针灸反射学以及现代针灸医学的发展，为世界医学和人类健康事业做出新的贡献。

最后，再次祝贺大会圆满成功！

祝福金观源教授身体健康、学术长青！

谢谢大家！

尊敬的金观源教授、各位专家学者、各位同仁：

值此“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”隆重召开之际，我谨代表全美中医药学会（American TCM Association，ATCMA），向大会的成功举办表示最热烈的祝贺！向金观源教授致以最崇高的敬意！向来自世界各地参加本次盛会的专家学者和同仁们致以诚挚的问候！

六十载悬壶济世，六十载薪火相传。金观源教授不仅是反映点针灸理论的重要倡导者和实践者，更是现代针灸医学发展的见证者、推动者和开拓者。教授以深厚的医学素养、严谨的科学精神和丰富的临床经验，在针灸研究、临床创新及国际传播等方面作出了卓越贡献，为推动针灸医学现代化和国际化发展树立了典范。本次国际研讨会汇聚全球十余位资深针灸专家，共同分享反映点针灸在疑难病、顽固性疾病治疗中真实世界临床经验和创新成果，充分体现了针灸医学开放包容、传承创新的发展精神。相信此次大会将为促进国际学术交流，推动针灸临床疗效提升、探索针灸医学未来发展方向提供重要平台，并为全球针灸事业的发展注入新的活力。

尤其令人期待的是，金观源教授将以《针灸医学发展的过去、现在与未来》为题发表主旨演讲。从历史与现实、科学与哲学、系统医学与临床实践的多维视角，回顾针灸医学的发展历程，剖析当前面临的机遇与挑战，展望未来的发展方向。这不仅是一位从医六十年的针灸大家的学术总结，更是对针灸医学未来发展的深刻思考和智慧启迪。

衷心祝愿本次大会圆满成功！祝愿金观源教授身体健康、学术长青！祝愿针灸医学事业薪火相传、蓬勃发展，为全人类健康福祉作出更大的贡献！

CONGRATULATORY MESSAGE

On the auspicious occasion of the grand opening of the “First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Conference Celebrating Professor Jin Guanyuan’s 60th Anniversary of Medical Practice”, I, on behalf of the Clinical Medical School of Acupuncture and Rehabilitation, Guangzhou University of Chinese Medicine, extend my warmest congratulations on the convening of this Conference and my highest respect to Professor Jin Guanyuan for his outstanding achievements in the field of acupuncture over the past sixty years.

Professor Jin Guanyuan has made remarkable achievements in acupuncture clinical practice, scientific research, and education, especially in the construction and practical innovation of the Acu-Reflex Point Acupuncture theoretical system. His pioneering contributions have played an important role in the development of acupuncture, and his academic thoughts and rich clinical experience have profoundly influenced generations of acupuncture colleagues. They are worthy of our eternal study and inheritance.

This Conference, with an international perspective and focusing on the theoretical development and clinical application of Acu-Reflex Point Acupuncture, provides a high-level academic exchange platform, which will certainly promote the inheritance, innovation, and internationalization of acupuncture. Taking this opportunity, our faculty and students will learn humbly, actively communicate, and strive to contribute wisdom and strength to the prosperous development of traditional Chinese medicine and acupuncture.

I wish the Conference a complete success! I wish Professor Jin Guanyuan good health, continued academic excellence, and a long and fulfilling life! I also wish all experts and scholars fruitful exchanges and fruitful outcomes during the Conference!

Tribute to Professor Guan Yuan Jin 60 Years of Acupuncture Legacy

It is with great respect and admiration that we honor Professor Guan Yuan Jin for his extraordinary contributions to acupuncture and Traditional Chinese Medicine over more than six decades.

Professor Jin is a distinguished scholar, educator, and visionary whose work has profoundly influenced the development of modern acupuncture. Through his pioneering application of cybernetics and systems theory to acupuncture research, his exploration of the nature of the meridian system, and his development of Acu-Reflex Point Acupuncture, he has helped shape a scientific and innovative framework for the advancement of acupuncture in the modern era.

His publication on the anti-inflammatory and targeted regulatory mechanisms of acupuncture has further strengthened the dialogue between TCM/Acupuncture and contemporary biomedical science, contributing significantly to a deeper understanding of acupuncture's therapeutic effects.

Since the 1980s, Professor Jin has been recognized as one of the most influential and prolific scholars in Chinese medicine. His numerous publications and books inspired a generation of students, practitioners, and researchers. For many of us who studied Chinese medicine during that period, his writings were not only important academic resources but also a source of inspiration that shaped our professional journeys.

Beyond his scholarly achievements, Professor Jin has been a dedicated advocate for the international development of Chinese medicine and acupuncture. Through teaching, research, and academic exchange, he has contributed to the growth of the profession worldwide and influenced countless practitioners and scholars across generations.

As an Honorary Professor of the Canadian Institute of Traditional Chinese Medicine (CITCM), Professor Jin has generously supported the development of CITCM. For which we are deeply grateful for his guidance, encouragement, and longstanding friendship.

On behalf of CITCM, I extend my heartfelt appreciation and highest respect to Professor Jin. His intellectual curiosity, innovative spirit, and unwavering commitment to advancing acupuncture continue to inspire us all. His legacy will endure through the many students, practitioners, and scholars whose lives and careers he has touched.

With sincere gratitude and best wishes for continued health, happiness, and academic fulfillment,

致金观源教授的敬意

谨此向 金观源教授 六十余年为针灸学和中医药事业发展所作出的卓越贡献致以最崇高的敬意!

金教授是当代针灸学界杰出的学者、教育家和思想家。数十年来，他始终站在学术创新的前沿，将控制论、系统论等现代科学理念引入针灸研究，深入探索经络实质及人体整体调控机制，创建并发展反映点针灸理论体系，为针灸学的现代化、科学化和国际化作出了开创性贡献。近年来，金教授对针灸抗炎，针灸靶向作用机理的系统阐释，进一步推动了针灸与现代生命科学的融合，为针灸临床价值的科学解释提供了重要理论依据。

早在 20 世纪 80 年代，金教授已是中医界享有盛誉的学者，发表大量学术论文，出版多部专业著作。在那个求知若渴的年代，他的著作与学术思想深深影响了一代中医院校师生，启迪了无数青年学子投身于中医药与针灸事业。作为当年的中医学生，我们也曾从先生的著作中汲取知识与智慧，深受启发，获益良多。

与此回时，金教授长期致力于中医药和针灸学在国际社会的传播与发展，为海外中医教育、学术交流和人才培养倾注大量心血，推动中医药走向世界，为国际针灸事业的发展作出了重要贡献。作为加拿大中医学院荣誉教授，金教授多年来始终关心和支持加拿大中医学院的教育与学术发展，我们对此深怀感激。

值此学术盛会之际，加拿大中医学院（CITCM）谨向金教授致以最诚挚的敬意和感谢。您严谨求实的治学精神、勇于创新的学术品格以及对后学的无私扶持，已成为我们学习的典范。您的学术成就与人格风范，必将继续激励后来者薪火相传、守正创新。

谨祝金教授身体康健，学术长青!

首屆反映點針灸國際研討會 組委會：

敬啟者：

值此「首屆反映點針灸國際研討會暨金觀源教授從醫六十週年學術回顧」隆重召開之際，我們謹代表 Five Branches University，向大會的順利舉辦致以最誠摯的祝賀，並向金觀源教授致以崇高的敬意！

六十載杏林耕耘，金觀源教授以深厚的學術造詣與豐富的臨床經驗，為針灸醫學之發展與國際傳播作出了卓越貢獻。尤其在反映點針灸理論與實踐方面之探索，不僅豐富了中醫針灸之學術體系，亦為提升疑難病症之臨床療效提供了重要方向。此次大會匯聚全球專家學者，共同交流相關成果，必將進一步推動針灸醫學之創新發展與國際合作。

Five Branches University 長期致力於中醫藥與針灸教育之傳承與發展，深知國際學術交流對於促進專業進步之重要性。我們對本次大會所展現之學術視野與合作精神深表欽佩，並期待未來能與各界同道加強交流、攜手推動中醫針灸事業之發展。

謹祝大會圓滿成功，與會嘉賓交流豐碩、學術精進！並祝金觀源教授身心康泰，學術長青！

Congratulations Letter

Upon learning that the First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Celebrating Professor Guanyuan Jin's 60 Years of Medical Practice is being launched online, I would like to extend my warmest congratulations!

Profound indeed is the way of acupuncture, with reflex correlation as its pivot. This conference gathers talents from around the world to explore the subtleties of acupoints, integrate the wisdom of systems medicine, and inaugurate a new chapter in reflex point therapy. I congratulate Professor Guanyuan Jin on his sixty years of distinguished dedication to healing. With his erudition and insight, he has bridged ancient and modern times, pioneered innovations, and earned both virtue and excellence—nurturing countless students worldwide.

May this grand event shine like a rainbow, advancing the brilliance of traditional acupuncture in the new era!

贺函

尊敬的大会主席、各位专家学者、各位同仁：

值此“2026 年 6 月 14 日首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”隆重召开之际，谨致以最热烈的祝贺和最诚挚的敬意！

本次国际研讨会由国际系统医学研究所主办、加拿大中医科学院协办，汇聚全球针灸领域众多卓越专家，共同探讨反映点针灸（Acu-Reflex Point Acupuncture, ARPA）的理论创新与临床实践。这不仅是一次高水平的学术盛会，更是推动针灸医学现代化与国际化发展的重要里程碑。

反映点针灸以系统医学为指导，深刻揭示“体表—内脏—中枢”之间的动态信息联系，既传承了《黄帝内经》整体观的精髓，又融合现代神经科学与复杂系统科学的前沿成果，为针灸医学的理论重构与临床提升提供了重要路径。其在疑难病症与顽固性疾病中的应用价值，充分体现了针灸医学从经验走向科学、从局部走向系统的时代趋势。

尤为可贵的是，本次大会同时向金观源教授六十载医教研生涯致以崇高致敬。金教授以其深厚的学术造诣与跨学科视野，开创性地将控制论、系统论引入针灸能研究，构建了反映点针灸理论体系，对中西医结合与系统医学的发展作出了卓越贡献。其学术思想不仅影响深远，更为全球针灸医学的发展提供了重要的理论支撑与实践范式。

相信通过本次研讨会的深入交流与思想碰撞，必将进一步推动反映点针灸理论的完善与临床应用的拓展，促进国际间的学术合作与资源共享，为提升全球人民健康水平作出积极贡献。

谨祝大会圆满成功！祝各位专家学者身体健康、学术精进！

Congratulations Letter

Dear Chairman of the Conference, Distinguished Experts and Scholars, and Colleagues,

On the occasion of the grand opening of the “First International Symposium on Acu-Reflex Point Acupuncture (ARPA) and the Academic Retrospective Celebrating Professor Guanyuan Jin’s 60 Years of Medical Practice” on June 14, 2026, please allow me to extend my warmest congratulations and most sincere respect!

This international symposium is hosted by the International Institute of Systematic Medicine and co-organized by the Canadian Academy of Traditional Chinese Medicine. It brings together numerous outstanding experts in the field of acupuncture from around the world to explore the theoretical innovations and clinical applications of Acu-Reflex Point Acupuncture (ARPA). This is not only a high-level academic event, but also an important milestone in advancing the modernization and internationalization of acupuncture medicine.

Guided by the principles of systematic medicine, Acu-Reflex Point Acupuncture profoundly reveals the dynamic informational connections among the “body surface–internal organs–central system.” It inherits the holistic perspective of the Huangdi *Neijing* and integrates cutting-edge achievements in modern neuroscience and complex systems science, providing an important pathway for the theoretical reconstruction and clinical advancement of acupuncture medicine. Its valuable applications in difficult and stubborn diseases fully demonstrate the contemporary trend of acupuncture medicine—transitioning from experience to science, and from the local to the systemic.

It is especially commendable that this conference also pays the highest tribute to Professor Guanyuan Jin for his sixty years of dedication to medical practice, education, and research. Professor Jin, with his profound academic attainments and interdiscipliaary vision, pioneered the introduction of cybernetics and systems theory into acupuncture research, and established the theoretical system of Acu-Reflex Point Acupuncture, making outstanding contributions to the development of integrated Chinese and Western medicine as well as systematic medicine. His academic ideas have had a far-reaching impact and provide important theoretical support and practical paradigms for the global advancement of acupuncture medicine.

I believe that through the in-depth exchanges and collisions of ideas in this symposium, the theory of Acu-Reflex Point Acupuncture will be further refined and its clinical applications expanded, international academic collaboration and resource sharing will be promoted, and positive contributions will be made to improving people’s health worldwide.

I wish the conference a complete success! I also wish all the experts and scholars good health and continuous academic excellence!

Yours sincerely,

尊敬的金观源教授及反映点针灸国际研讨会组委会：

值此“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”隆重召开之际，我谨代表美国国立自然医学大学（National University of Natural Medicine）中医学院，向大会的举办表示热烈祝贺！并向金观源教授六十年来在针灸医学领域所作出的卓越贡献，致以崇高敬意！

回顾针灸医学的发展历程，从《黄帝内经》“有诸内，必形诸外”的整体观，到现代神经科学、系统科学与信息医学的发展，人们对于针灸本质的理解正在不断深化。反映点针灸理论的重要意义，正在于它重新强调了人体作为动态整体系统的功能联系，强调通过识别疾病状态下体表所呈现的反映信息，实现对机体调节网络的精准干预。这一理念既根植于传统中医整体观，又积极回应现代医学对于神经调控、信息反馈与系统整合的探索方向。

金观源教授长期致力于针灸医学、反映点理论及系统医学思想的研究与实践，以深厚的临床经验与跨学科视野，推动针灸医学从经验积累逐步迈向现代化。系统化与国际化的发展道路。其提出的“刺准反映点中心，为穴位针刺之要”等学术观点，对于推动针灸临床疗效提升与理论创新具有深远影响。

当前，随着人工智能、生物传感、功能影像学及复杂系统科学的发展，针灸医学正迎来新的历史机遇。未来针灸的发展，不仅需要传承经典，更需要以开放、科学与跨学科的视野，推动传统医学与现代科学深度融合。反映点针灸的持续探索，无疑为针灸现代化与国际传播提供了重要方向与宝贵启示。

我们衷心期待，本次国际研讨会能够进一步促进全球针灸同道之间的学术交流与合作，共同推动针灸医学在教育、临床、科研与整合医疗领域的发展，为人类健康事业贡献更多智慧与力量。

预祝大会圆满成功！祝各位专家学者交流丰硕、成果斐然！

Congratulations Letter

Dear Professor Guanyuan Jin and the Organizing Committee
of the International Symposium on Acu-Reflex Point Acupuncture:

On the occasion of the grand opening of the “First International Symposium on Acu-Reflex Point Acupuncture (ARPA) and the Academic Retrospective Celebrating Professor Guanyuan Jin’s 60 Years of Medical Practice”, I would like to extend my hearty heartfelt congratulations on behalf of the College of Classical Chinese Medicine, National University of Natural Medicine (USA)! I would also like to pay my highest respect to Professor Guanyuan Jin for his outstanding contributions to the field of acupuncture medicine over the past six decades!

Looking back on the development of acupuncture medicine, from the holistic view of “what is inside must manifest on the outside” in the *Huangdi Neijing*, to the advancement of modern neuroscience, systems science, and informatics medicine, our understanding of the essence of acupuncture continues to deepen. The significance of Acu-Reflex Point Acupuncture lies in its re-emphasis on the functional connections of the human body as a dynamic holistic system, and on identifying reflex information on the body surface under disease conditions to achieve precise intervention of the regulatory networks. This concept is deeply rooted in the holistic view of traditional Chinese medicine and actively responds to the modern medicine’s exploration of neural regulation, information feedback, and systems integration.

Professor Guanyuan Jin has long been dedicated to research and practice in acupuncture medicine, Acu-Reflex theory, and systems medicine. With his profound clinical experience and interdisciplinary vision, he has advanced acupuncture medicine from empirical accumulation toward modernization, systematization, and internationalization. His academic concept of “accurately needling the center of reflex points is essential for effective acupuncture” and other insights have had a profound impact on improving clinical outcomes and advancing theoretical innovation.

With the development of artificial intelligence, biosensors, functional imaging, and complex systems science, acupuncture medicine is welcoming new historical opportunities. The future of acupuncture requires not only the inheritance of classics but also an open, scientific, and interdisciplinary perspective to promote the deep integration of traditional medicine and modern science. The ongoing exploration of Acu-Reflex acupuncture undoubteoly provides important direction and valuable inspiration for the modernization and international dissemination of acupuncture.

We sincerely look forward to this international symposium further promoting academic exchange and cooperation among acupuncture colleagues worldwide, and jointly advancing the development of acupuncture medicine in education, clinical practice, research, and integrative medicine, contributing more wisdom and strength to the cause of human health.

Wishing the conference a complete success! Best wishes to all experts and scholars for fruitful exchanges and outstanding achievements!

值此“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾大会”隆重召开之际，谨向大会的顺利举办表示热烈祝贺！向大会主办单位、协办机构、各位专家学者及全体会务工作人员致以诚挚问候！向从六十年年致力于针灸医学传承创新事业的金观源教授致以崇高敬意！

针灸医学作为中华文明的重要瑰宝，历经数千年传承发展，始终秉承“天人合一、整体调节”的核心理念，在疾病防治、健康维护及国际医学交流中发挥着重要作用。当前，随着现代医学与生命科学不断进步，针灸正迎来新的发展机遇。本次论坛以国际化视野。多学科融合及临床实践创新为核心，汇聚海内外知名针灸专家与学者，共同探讨针灸现代化、科学化与国际化发展路径，具有十分重要的学术价值与现实意义。

薪火相传守初心，岐黄济世谱华章。长期以来，广大针灸工作者坚持守正创新，深入挖掘中医经典理论，积极融合现代科学研究成果，在经络实质、神经调控机制、反映点诊疗体系及疑难病临床治疗等领域取得了一系列令人瞩目的成果，为推动针灸医学高质量发展作出了重要贡献。

尤其值得肯定的是，金观源教授创立的反映点针灸理论在继承传统经络学说基础上，结合系统医学、神经科学及现代临床研究，进一步拓展了针灸辨证施治的新思路，为提高临床疗效、推动精准针灸发展提供了新的理论支持与实践方向。相关研究成果不仅丰富了针灸学术体系，也为中医药走向世界提供了重要学术支撑。

本次大会围绕针灸医学发展的前沿问题展开深入交流，通过专题报告、案例分享及学术研讨，必将进一步促进国际针灸界互学互鉴、深化合作，推动传统针灸与现代科学深度融合，为全球健康事业贡献中医针灸智慧。

传承精华，守正创新。希望广大针灸同仁以本次大会为契机，坚持临床为本、学术为魂，不断加强国际交流合作，推动针灸理论创新、技术创新与人才培养，共同谱写新时代针灸医学发展的新篇章。

最后，预祝本次大会圆满成功！祝各位专家学者身体健康、学术精进、事业昌盛！祝针灸医学薪火永续、泽惠世界！

CONGRATULATORY LETTER

On the occasion of the grand opening of The First International Symposium on Acu-Reflex Point Acupuncture (ARPA) and the Academic Review Celebrating Professor Guanyuan Jin's Sixty Years of Medical Practice, I would like to extend my heartiest congratulations on the successful convening of this distinguished event. I also coney my sincere greetings to the organizers, co-organizers, experts, scholars, and all members of the organizing committee, and express my highest respect to Professor Guanyuan Jin for his sixty years of dedication to the inheritance and innovation of acupuncture medicine.

As an invaluable treasure of Chinese civilization, acupuncture has been passed down for thousands of years, always upholding the principles of holistic regulation and harmony between humanity and nature. It has played an important role in disease prevention, health preservation, and international medical exchange. With the continuous advancement of modern medicine and life sciences, acupuncture is now embracing new opportunities for development.

This symposium, characterized by an international perspective, multidisciplinary integration, and clinical innovation, brings together renowned experts and scholars from around the world to explore the modernization, scientific development, and internationalization of acupuncture. It therefore possesses great academic and practical significance.

Over the years, acupuncture practitioners have remained committed to preserving tradition while pursuing innovation. Significant achievements have been made in meridian research, neural regulatory mechanisms, Acu-Reflex Point diagnosis and treatment, and the management of difficult diseases, contributing greatly to the advancement of acupuncture medicine.

Particularly noteworthy is the Acu-Reflex Point Acupuncture theory established by Professor Guanyuan Jin. Based upon traditional meridian theory and integrated with systems medicine, neuroscience, and modern clinical research, it provides new perspectives for syndrome differentiation and treatment, offering fresh theoretical support and practical directions for precision acupuncture. These achievements have enriched the academic system of acupuncture and provided important support for the globalization of Traditional Chinese Medicine.

Through keynote presentations, case sharing, and academic discussions, this conference will undoubtedly promote mutual learning and international cooperation, facilitate the integration of traditional acupuncture with modern science, and contribute the wisdom of Chinese acupuncture to global health.

May all acupuncture colleagues take this opportunity to strengthen academic exchange and cooperation, promote theoretical and technological innovation, cultivate future talents, and jointly write a new chapter in the development of acupuncture medicine.

Finally, I wish this conference every success. May all experts and scholars enjoy good health, continued academic progress, and prosperous careers. May acupuncture medicine continue to flourish and benefit people throughout the world.

CONGRATULATORY LETTER

Dear Organizing Committee,
Dear Professor Guanyuan Jin,

On the occasion of the grand opening of The First International Symposium on Acu-Reflex Point Acupuncture and the Academic Review Celebrating Professor Guanyuan Jin's Sixty Years of Medical Practice, I would like to extend my warmest congratulations on the successful convening of this distinguished event!

I also would like to offer my sincere greetings to the organizers, the International Institute of Systems Medicine, the co-organizer Canada College of Traditional Chinese Medicine, and the Co-chairs Dr. Changzhen Gong and Dr. Lei Jin, as well as the hosts Dr. Wei Huang and Dr. Xia Cheng and all the staff.

And I would like to express my highest respect to Professor Guanyuan Jin.

Sixty years of dedication have forged a remarkable legacy. I wish to express my highest respect to Professor Guanyuan Jin! Over six decades, Professor Jin has dedicated himself to clinical practice, research and teaching of acupuncture. Learning from the senior masters, he integrates Chinese and Western medical theories, systems medicine and modern neuroscience, and, based on the core idea of “correspondence between the interior and exterior” in the Huangdi Neijing, breaks through the limitations of fixed acupoints and has made outstanding contributions to establishing a complete academic system of Acu-Reflex Point Acupuncture.

Using cybernetics and systems theory to interpret the essence of meridians, Professor Jin proposed the core theory of dynamic superficial reflex points in diagnosis and treatment, improved the system of acupuncture reflexology, and through writing, clinical practice and teaching, he has promoted traditional acupuncture from empirical medicine to science-based, precise and systematic practice, making creative and significant contributions to the modernization and internationalization of acupuncture.

This symposium is uniquely designed around “The Past, Present and Future of Acupuncture Medicine”, and will review the history of acupuncture development and analyze the challenges and opportunities of our field from historical, philosophical and systems medicine perspectives, providing valuable insights for the innovative development of contemporary acupuncture.

Inheritance never stops, and innovation has no end. I hope that this international symposium will unite acupuncture professionals worldwide to learn from and inspire each other, deepen clinical practice, uphold integrity and innovation, actively promote advanced acupuncture concepts and techniques, drive the deep integration of traditional acupuncture with modern science, and help bring Chinese medicine and acupuncture to the world for the benefit of people everywhere.

I wish this international symposium a complete success!

Dear Professor Jin Guanyuan and the esteemed members of the Symposium Organizing Committee

On behalf of the American Society of Acupuncturists (ASA), it is a distinct privilege to extend our warmest congratulations on the occasion of the 1st International Symposium on Acu-Reflex Point Acupuncture (ARPA). We also join you in celebrating and honoring the extraordinary 60-year medical legacy of Professor Jin Guanyuan.

Six decades of dedicated medical service is a monumental achievement. Professor Jin's work in coining and developing ARPA represents a vital bridge in our field. By elegantly integrating traditional meridian theory with modern, systems theory-based neurophysiological principles, ARPA highlights the true evolution of medical acupuncture. The clinical success of this contemporary system—ranging from advanced pain management and neurological rehabilitation to homeostatic regulation—demonstrates the power of evidence-based, integrative medicine.

The ASA deeply appreciates your dedication to bringing together international experts, clinicians, and researchers to promote academic exchange. It is through rigorous scientific dialogue and systematic clinical approaches like ARPA that our profession continues to advance, gain mainstream integration, and ultimately elevate patient care.

We commend the organizing committee for your vision and hard work in launching this inaugural symposium. May this event be a source of deep professional inspiration, fruitful collaboration, and continued advancement for medical acupuncture worldwide.

With highest regards and congratulations,

尊敬的金观源教授及参会的各位同仁，大家好！

非常高兴今天参加首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾大会。受金老师之托，代表海外弟子表达对大会的热烈祝贺！

中国针灸源远流长，历代医家层出不穷，但近代针灸史上，金观源教授的贡献功不可灭。他从医六十载，勤奋努力，深耕针灸科研，临床和教学，在各个领域都取得了丰硕的成果！

六十年的临床实践，诊疗患者无数，积累了丰富的临床经验，疗效卓著，特别是诊治疑难病症方面，凸显临床大家风范。他把系统论应用于针灸临床，创立了反映点针灸理论，验之临床，常收到意想不到的良效。

他有着敏锐的洞察力，常常发现医学难题，用他特有的科研思路，找出问题的症结，提供有效的解决方案，视角独特，说理充分，使业界人士对针灸的认识和解读提升到一个新高度！这样的成就得益于他中西医两套深厚的功底和科研素质。

他兢兢业业，从不懈怠，努力著书立说，发表了很多具有新观点，新思路的文章和专著。同时在海内外广收弟子，传播知识，提升技艺，大部分弟子都学有所成，在各自的岗位上都发挥着重要的作用，尽力把金老师的学术思想广泛传播出去，让更多的医生掌握这些行之有效的方法，造福更多的患者。

一花独放不是春，百花齐放春满园！今天我们会再次领略金老师风采，聆听他的精彩演讲，学习他最最新的科成果和从医六十年的感悟，更有机会听到他众多生弟子们的经验分享，验证金老师学术思想的正确和临床上的指导效果。

预祝本次首届反映点针灸国际研讨会圆满成功！恭贺金观源教授从医六十周年取得的伟大成就！

CONGRATULATORY MESSAGE

Dear Professor Jin Guanyuan and fellow colleagues,

I am very pleased to attend the First International Symposium on Acu-Reflex Point Acupuncture and the 60th Anniversary Academic Retrospective of Professor Jin Guanyuan's Medical Practice today. At the request of Professor Jin, I would like to, on behalf of his overseas disciples, extend our warmest congratulations to the conference!

With a long history and profound heritage, traditional Chinese acupuncture has produced countless outstanding physicians throughout the ages. In the history of modern acupuncture, however, Professor Jin Guanyuan's contributions are truly indelible. Over the past sixty years, he has worked diligently in clinical practice, scientific research, and teaching of acupuncture, achieving fruitful results in all these fields!

Through six decades of clinical practice, Professor Jin has treated countless patients and accumulated extensive clinical experience with remarkable therapeutic outcomes, especially in treating complicated and difficult diseases, demonstrating the exemplary style of a master clinician. He applied systems theory to acupuncture practice and established the theory of Acu-Reflex Point Acupuncture, which has often produced unexpectedly excellent results in clinical application.

Professor Jin possesses keen insight and often identifies challenging medical problems. With his unique scientific approach, he finds the root causes and provides effective solutions. His original perspectives and well-reasoned explanations have elevated the understanding and interpretation of acupuncture in the profession to a new level—achievements that stem from his deep expertise in both Chinese and Western medicine and his strong research capabilities.

He has always been dedicated and tireless, devoting himself to writing and publishing. He has produced numerous papers and books with innovative ideas and approaches. At the same time, he has accepted many disciples at home and abroad, imparting knowledge and skills. Most of his disciples have achieved success in their own fields and are making important contributions in their respective positions, striving to disseminate Professor Jin's academic ideas widely so that more physicians can master these effective methods and benefit more patients.

One flower alone does not make spring, but when a hundred flowers bloom together, the garden is full of spring! Today, we will once again appreciate Professor Jin's presence, listen to his wonderful lectures, learn about his latest research achievements and his insights from six decades of medical practice, and also have the opportunity to hear his many students and disciples share their experiences, thereby validating the correctness and clinical guidance of his academic ideas.

I wish the First International Symposium on Acu-Reflex Point Acupuncture a complete success! Congratulations to Professor Jin Guanyuan on his tremendous achievements over the past sixty years of medical practice!

Dear Professor Jin Guanyuan,

I am delighted to learn that the First International Symposium on Acu-Reflex Point Acupuncture and the 60th Anniversary Academic Retrospective of Professor Jin Guanyuan's Medical Practice will soon be held. Please accept my warmest congratulations on the convening of this important event!

Over the past sixty years of his medical career, Professor Jin has made outstanding contributions to the development of acupuncture medicine with his superb skills, profound knowledge, and selfless dedication. The "Acu-Reflex Point Acupuncture" theory system you founded integrates the wisdom of traditional Chinese medicine with modern medical concepts, has demonstrated remarkable clinical efficacy, benefited countless patients, and promoted innovation in acupuncture scholarship and international exchange.

You are not only an eminent clinical expert but also an outstanding educator, cultivating a large number of excellent acupuncture practitioners, with disciples spread all over the world. Your rigorous scholarship and benevolent medical virtue have inspired generations of TCM professionals to forge ahead.

On the occasion of your 60th anniversary of medical practice, I sincerely wish you good health, long life, and continued greater contributions to the development and inheritance of acupuncture and traditional Chinese medicine!

Wishing the symposium a complete success!

“首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾”即将召开，仅此，郑氏针灸国际学会向大会及金观源教授表达热烈祝贺。

针灸延年几千年，为人类文明和健康事业做出的贡献无与伦比，其自身也在不断发展完善。反映点针灸是近几十年金观源教授基于《黄帝内经》思想，传承传统技术，融会系统医学与现代神经科学的新型针灸。其成果丰富了针灸技术和临床应用，必定对针灸的进一步发展产生影响。

金观源教授早年曾师学传统针灸大师郑魁山教授，融会贯通，所创立的反映点针灸是守正创新的典范。

值此，祝研讨会圆满成功！

CONGRATULATORY MESSAGE

The “First International Symposium on Acu-Reflex Point Acupuncture and the 60th Anniversary Academic Retrospective of Professor Jin Guanyuan’s Medical Practice” is about to be held. On this occasion, the Zheng Acupuncture International Society would like to extend our warmest congratulations to the Symposium and to Professor Jin Guanyuan.

Acupuncture has a history of thousands of years, making irreplaceable contributions to human civilization and the cause of health. It is also continually evolving and improving. Acu-Reflex Point Acupuncture, developed by Professor Jin Guanyuan in recent decades based on the philosophy of *the Huangdi Neijing*, inherits traditional techniques while integrating systems medicine and modern neuroscience. Its achievements have enriched acupuncture techniques and clinical applications, and will surely have a significant impact on the further development of acupuncture.

In his early years, Professor Jin Guanyuan studied under the renowned master of traditional acupuncture, Professor Zheng Kuishan, and integrated and advanced upon these teachings. The Acu-Reflex Point Acupuncture he established stands as a model of preserving authenticity while pursuing innovation.

On this occasion, we wish the Symposium a complete success!

贺词：

在世界大动荡，大变革，科学技术飞速发展，现代医学与传统医学相互促进，交相辉映，不断推陈出新，创出奇迹的今天，我们迎来了首届反映点针灸国际研讨会暨金观源教授从医60周年学术回顾大会隆重召开，内心无比喜悦。在此，向大会的顺利召开表示热烈祝贺！向金观源教授深表崇高的敬意！

金观源教授是家父最后一位关门弟子。多年来，金教授对祖国医学刻苦钻研，认真继承，勇于探索，敢于创新的精神，使我由衷地敬佩。

反映点针灸是一个崭新的现代针灸体系。它以黄帝内经“有诸内，必形诸外”的人体整体性思想为基础，以现代系统医学思想为指导，继承了阿是穴“以痛为输”，及针灸前辈的“压痛点”，“揣穴”等经典理念，把中医针灸的取穴赋予了新的内涵，舍弃了以往静止不变的“地图坐标”式取穴，取而代之的是，寻反映点取穴。 所取之穴就是疾病状态下体表所产生的动态反映点，就是连接体内病灶的信息窗口。在反映点中心下针或施灸，就会直达病灶，取得立竿见影的疗效。

这些反映点针灸的理论，从金教授及他的学生们无数的临床成功案例中都得到了充分的验证。

展望未来，前程似锦。我们深信，在今后世界医学的大花园中，金教授创立的反映点针灸，必定会开出更多更美的绚丽花朵，结出更多更好的丰硕成果！

最后

预祝大会圆满成功！

CONGRATULATORY MESSAGE

In today's world of great turmoil and profound transformation, with science and technology advancing at a rapid pace, and modern medicine and traditional medicine mutually promoting and complementing each other, constantly innovating and creating miracles, we are delighted to welcome the grand opening of the First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Conference Celebrating Professor Jin Guanyuan's 60 Years of Medical Practice. With immense joy, I would like to extend my heartfelt congratulations on the successful convening of the Conference! I also wish to express my deepest respect and admiration to Professor Jin Guanyuan!

Professor Jin Guanyuan is the last closed-door disciple of my father. Over the years, Professor Jin has devoted himself to the study of our nation's medicine with diligence, earnestly inheriting it, bravely exploring, and fearlessly innovating, which has earned my sincere respect.

Acu-Reflex Point Acupuncture is a novel and modern acupuncture system. It is founded on the holistic philosophy of the *Huangdi Neijing*—"whatever exists within will manifest without"—and guided by the ideology of modern systems medicine. It inherits the concept of Ashi points—"pain as the pathway"—as well as the classic theories of "tender points" and "palpating for points" from previous acupuncture masters. It endows the selection of acupuncture points with new connotations, abandoning the static, unchanging "map-coordinate" method of point selection, and instead seeking reflex points. The points identified are the dyna*mic reflexes* on the body surface under pathological conditions, which serve as information windows linking to internal lesions. Needling or moxibustion at the center of these reflex points can directly reach the lesion and produce remarkable therapeutic effects.

The theories of Acu-Reflex Point Acupuncture have been fully validated through countless successful clinical cases by Professor Jin and his students.

Looking ahead, the future is bright. We firmly believe that in the great garden of global medicine, the Acu-Reflex Point Acupuncture established by Professor Jin will surely blossom more and more beautiful flowers and bear even more abundant and excellent fruits!

Finally,
I wish the Conference a complete success!

尊敬的金观源教授、金雷博士，各位参会嘉宾：

欣悉首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾大会在线隆重召开，谨致以最热烈的祝贺！金教授以不懈的学术追求与卓越的临床实践，为现代针灸医学发展树立典范，值此盛会之际，特向您致以崇高敬意！

六十载耕耘，针技拔萃；
一甲子奋发，春华秋实！

金观源教授以其深厚的学养，长期精勤不倦，早年即开创性地将系统论与控制论引入针灸研究，创立反映点针刺法，为传统经络学说赋予现代科学内涵。近年来提出的“抗炎针灸”理念及抗炎祛痛的多种针刺策略，为解决现代医学面临的炎症难题，提供了全新的中医智慧，并推动《国际反映点针灸操作标准》制定，进一步引领反映点针灸走向精准化、标准化。

先生巨著**《临床针灸反射学》**为传统针灸与现代医学之间架起一座坚实的桥梁，不仅以扎实的神经生理学功底为反映点针灸赋予科学内涵，更以开放包容的学术胸襟推动针灸与现代医学各前沿领域的对话，其影响远及海内外。

1ST INTERNATIONAL SYMPOSIUM ON ACU-REFLEX POINT ACUPUNCTURE · JUNE 2026
首届反映点针灸国际研讨会暨金观源教授从医六十周年学术回顾大会

CONGRATULATORY MESSAGE

Dear Professor Jin Guanyuan, Dr. Jin Lei, and Distinguished Guests,

I am pleased to learn that the First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Commemorating the 60th Anniversary of Professor Jin Guanyuan's Medical Practice is being held online in grand fashion. Please accept my most warm congratulations!

Professor Jin's relentless pursuit of academic excellence and outstanding clinical practice have set an exemplary model for the development of modern acupuncture and moxibustion. On this auspicious occasion, I wish to extend my highest respect to you!

Sixty years of dedication, his needle skills outstanding;
A full cycle of perseverance, fruits of spring and autumn abundant!

With profound scholarship and tireless dedication, Professor Jin Guanyuan pioneered the introduction of systems theory and control theory into acupuncture research at an early stage, and established the Acu-Reflex Point Needling Method, endowing the traditional meridian theory with modern scientific connotations. In recent years, his "anti-inflammatory acupuncture" concept and various needling strategies for relieving pain and inflammation have provided innovative TCM solutions to the challenge of inflammation in modern medicine, and have advanced the formulation of the "International Standard for Acu-Reflex Point Acupuncture Procedures", further leading Acu-Reflex Point Acupuncture toward greater precision and standardization.

His magnum opus, *Clinical Reflexology of Acupuncture*, has built a solid bridge between traditional acupuncture and modern medicine. With a solid foundation in neurophysiology, he has provided Acu-Reflex Point Acupuncture with a scientific basis, and with an open and inclusive academic mind, he has promoted dialogue between acupuncture and cutting-edge fields of modern medicine, with influence extending far beyond national borders.

◆ ◆ ◆

This grand gathering is not only an academic retrospective of Professor Jin's six decades of medical practice, but also a new starting point for Acu-Reflex Point Acupuncture to reach the world. As the mentor of Dr. Jin Lei, I am delighted to see the next generation inherit the family legacy, carry it forward, and join hands in this important event. On this online reunion, I sincerely wish the Conference a complete success and Professor Jin continued academic brilliance, happiness, and good health!

With sincere congratulations and best wishes for a successful Conference!

CONGRATULATORY MESSAGE

I extend my warmest congratulations on the grand opening of the First International Symposium on Acu-Reflex Point Acupuncture and the 60th Anniversary Conference Celebrating Professor Jin Guanyuan's Medical Practice, held online.

Acu-Reflex Point Acupuncture integrates ancient and modern medical theories, combines meridian theory with modern neuroscience, and establishes a clinically evidence-based system. Over six decades of medical practice, Professor Jin has skillfully integrated Eastern and Western medicine, combined clinical experience with evidence-based research, and advanced acupuncture toward standardization and scientific rigor.

The gathering of experts online illuminates each other like reflex points interacting in harmony. May all colleagues take this occasion to observe the internal organs through the body surface, and expand new frontiers in acupuncture through evidence-based practice.

Wishing Professor Jin continued academic excellence and the Conference abundant achievements!

YIWU HOSPITAL OF TRADITIONAL CHINESE MEDICINE

CONGRATULATORY MESSAGE

On the auspicious occasion of the grand opening of the “First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Conference Celebrating Professor Jin Guanyuan’s 60th Anniversary of Medical Practice”, Yiwu Hospital of Traditional Chinese Medicine extends our warmest congratulations on the successful convening of the Conference! We also express our highest respect to Professor Jin Guanyuan, the organizers, and all the experts and scholars for their unremitting efforts in promoting the inheritance and innovation of acupuncture medicine.

Acupuncture, as a brilliant treasure of Chinese excellent traditional culture, has a long history and remarkable efficacy, and plays an irreplaceable role in safeguarding public health and promoting exchanges between Chinese and foreign medicine. This Conference is held online across time zones in a public welfare and free-of-charge format, bringing together many distinguished experts in the field of acupuncture from around the world, and providing a high-level, practical and widely beneficial academic exchange platform for acupuncture colleagues at home and abroad, which is of great significance for promoting the inheritance and innovation of acupuncture studies and improving the level of primary healthcare.

For sixty years of unwavering dedication, the torch has been passed down through generations. Professor Jin Guanyuan has been devoted to clinical practice, scientific research and teaching of acupuncture for six decades. With profound knowledge of traditional Chinese medicine and comprehensive learning of both Eastern and Western medicine, he interprets the mechanism of acupuncture from a scientific perspective, and promotes the development of traditional acupuncture toward scientific, precise and standardized practice, making outstanding contributions to the modernization and internationalization of acupuncture, which makes him a model for peers in the profession.

This Conference not only reviews the historical accumulation, but also looks forward to the future. It will surely inject new momentum into the global acupuncture field and open a new chapter. Our hospital is willing to work with colleagues at home and abroad, strengthen academic exchanges, learn from each other, and jointly promote the improvement of acupuncture techniques and the high-quality development of Traditional Chinese Medicine.

Finally, we sincerely wish the First International Symposium on Acu-Reflex Point Acupuncture a complete success! We wish Professor Jin Guanyuan continued academic brilliance and good health! We also wish all experts and colleagues fruitful learning, professional advancement, and continued progress!

针灸作为中华医学传世瑰宝，积淀千年智慧，享誉全球四方。本次大会以公益共享为宗旨，依托云端跨时区联动模式，汇聚国际针灸名家分享临床经验与创新技法，为全球尤其是基层医疗从业者搭建起优质学术交流平台，是一场极具价值的行业盛会。

从青丝到白发，金观源教授在针灸临床、科研与教学的道路上已坚定走过六十个春秋。他深耕针灸领域，承古训、融新知，贯通中西医、系统医学与现代神经科学，依托传统医理突破技术壁垒，创立反映点针灸完整学术体系，成就斐然。

感念于心，铭记于行。2025年，金观源教授亲临肥城市中医医院传经送宝、悉心指导，助力我院圆满承办山东中西医结合学会系统中医学专业委员会第一届第二次学术会议暨山东省第四届系统中医学学术研讨会。会上，金教授深入浅出阐释系统医学与中医创新的前沿理论，新颖的学术理念、独到的诊疗思路令参会医务工作者大开眼界、深受启迪。一年来，我院全体同仁认真研学、学以致用，将反映点针灸的先进进念与实用技术广泛应用于临床，收获了丰硕的实践成果。金教授的倾囊相授与鼎力帮扶，不仅为我院针灸学科建设注入强劲活力，更让全体医者坚定了传承国粹、守正创新中医药事业的信念与决心。

传承无止境，创新不停歇。愿以此次盛会为契机，全球针灸同仁携手并肩、交流互促，守中医之本、拓发展之路，让传统针灸融合现代科技、走向世界，造福万千民众。

最后，预祝本次国际研讨会取得圆满成功！恭祝金观源教授学术长青、福寿康宁！祝全体参会专家同仁学有所得、精进致远！

FEICHENG HOSPITAL OF TRADITIONAL CHINESE MEDICINE

CONGRATULATORY MESSAGE

On the auspicious occasion of the grand opening of the First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Conference Celebrating Professor Jin Guanyuan's 60th Anniversary of Medical Practice, Feicheng Hospital of Traditional Chinese Medicine extends our warmest congratulations on the successful convening of this Conference! We also express our highest respect to Professor Jin Guanyuan, who is renowned for his virtue and accomplishments, as well as to all the organizers and co-organizers of the Conference, and to all experts and scholars from home and abroad who are participating.

Acupuncture, as a treasured legacy of Chinese medicine, has accumulated thousands of years of wisdom and enjoys a worldwide reputation. Guided by the principle of public welfare and sharing, this Conference leverages a cloud-based cross-time-zone linkage model, bringing together renowned international acupuncture experts to share clinical experiences and innovative techniques. It provides a high-quality academic exchange platform for the world, especially for practitioners at the primary care level, and is a highly valuable event for the industry.

From youth to white hair, Professor Jin Guanyuan has been steadfastly dedicated to the fields of acupuncture clinical practice, scientific research, and education for sixty years. He has deeply cultivated the field of acupuncture, inherited ancient teachings and integrated new knowledge, connected traditional Chinese and Western medicine, systems medicine, and modern neuroscience, and broken through technical barriers based on traditional medical theories. He has established a complete academic system of Acu-Reflex Point Acupuncture, achieving remarkable accomplishments.

We are deeply grateful and will always keep it in mind. In 2025, Professor Jin Guanyuan visited Feicheng Hospital of Traditional Chinese Medicine in person to impart knowledge and provide guidance, helping our hospital successfully host the 2nd Academic Conference of the First Committee of Systems Medicine, Shandong Association of Integrated Traditional Chinese and Western Medicine, and the 4th Shandong Academic Symposium on Systems Medicine. At the Conference, Professor Jin clearly and profoundly interpreted the frontier theories of systems medicine and innovation in Traditional Chinese Medicine. His novel academic concepts and unique diagnostic and treatment ideas greatly broadened the horizons and inspired the participating medical staff. Over the past year, all our colleagues have earnestly studied and applied what they learned, widely implementing the advanced concepts and practical techniques of Acu-Reflex Point Acupuncture in clinical practice and achieving fruitful results. Professor Jin's selfless teaching and strong support have not only injected great vitality into the construction of our hospital's acupuncture discipline, but also strengthened the firm belief and determination of all medical staff to inherit the essence, uphold integrity, and innovate in the cause of Traditional Chinese Medicine.

Inheritance has no end, and innovation never stops. May this grand event serve as an opportunity for acupuncture colleagues around the world to join hands, promote exchanges and mutual learning, uphold the essence of Traditional Chinese Medicine, explore paths for development, integrate traditional acupuncture with modern science and technology, bring it to the world, and benefit the people.

Finally, we wish this International Symposium a complete success! We wish Professor Jin Guanyuan continued academic brilliance, good health, and long life! We wish all participating experts and colleagues fruitful learning and continuous progress!

CONGRATULATORY MESSAGE

On the auspicious occasion of the First International Symposium on Acu-Reflex Point Acupuncture and the Academic Retrospective Conference Celebrating the 60th Anniversary of Professor Guanyuan Jin's Medical Career, I extend my warmest congratulations on the successful convening of the Conference! I also express my highest respect to Professor Guanyuan Jin, and heartfelt greetings to all participating experts and colleagues!

For six decades of perseverance through wind and rain, and sixty years of fruitful achievements. Professor Guanyuan Jin has devoted himself to the academic field of acupuncture for sixty years, integrating theories of both Chinese and Western medicine with modern systems medicine. Grounded in the core principle of "correspondence between the interior and exterior" in the Huangdi Neijing, he broke through the limitations of traditional acupoints and pioneered the establishment of a complete academic system of Acu-Reflex Point Acupuncture. By interpreting the essence of meridians through control theory and systems theory, and authoring classic works such as Clinical Acupuncture Reflexology, he has advanced traditional acupuncture from experiential medicine to a new realm of scientific and precise practice, making landmark contributions to the modernization and internationalization of Traditional Chinese Medicine.

This Conference brings together acupuncture elites from around the world to explore the essence of Acu-Reflex Point Acupuncture and to envision the future of innovation and development in Traditional Chinese Medicine. May all participating colleagues join hands, uphold the essence and pursue innovation, promote the deep integration of traditional acupuncture and modern intelligent medicine, and contribute wisdom and strength to the cause of human health!

Wishing the Conference a complete success! Best wishes to Professor Guanyuan Jin for enduring academic excellence, good health, and long life!
